GESTURES OF STYLE

Gestures of style

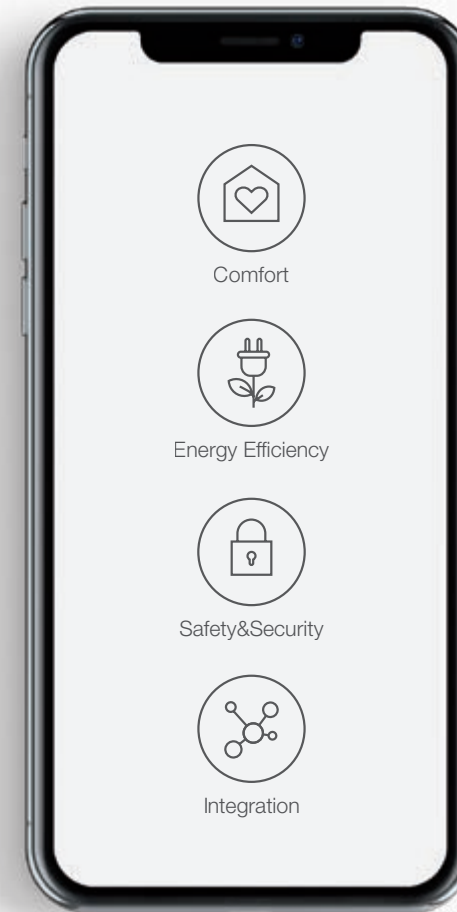

Our products celebrate the progress made by changing lifestyles. Souls that differ in their design and finishes, harmonious geometric shapes designed to liaise constantly in order to provide comfort, energy efficiency and safety. We tend to every project with care, to incorporate them with versatility and add value to every living space.

Beauty in everyday actions to manage your home, your office, hospitality venues and public or commercial spaces.

It's also connected

Versatile, smart systems that can be integrated and expanded over time, to manage and supervise locally and remotely

Our idea of a smart home is a place that can “take care of us”, monitoring and optimising features such as the lighting, climate control and security.

We offer high-tech solutions, both wired and connected, to control wiring system using the interfaces on your smartphone, using voice controls, integrated with widely-available smart speakers, and also home automation systems with international protocols and standards, also integrated with video door entry systems. We can easily be integrated with other home management systems. We are connected and connectable.

Comfort

Energy Efficiency

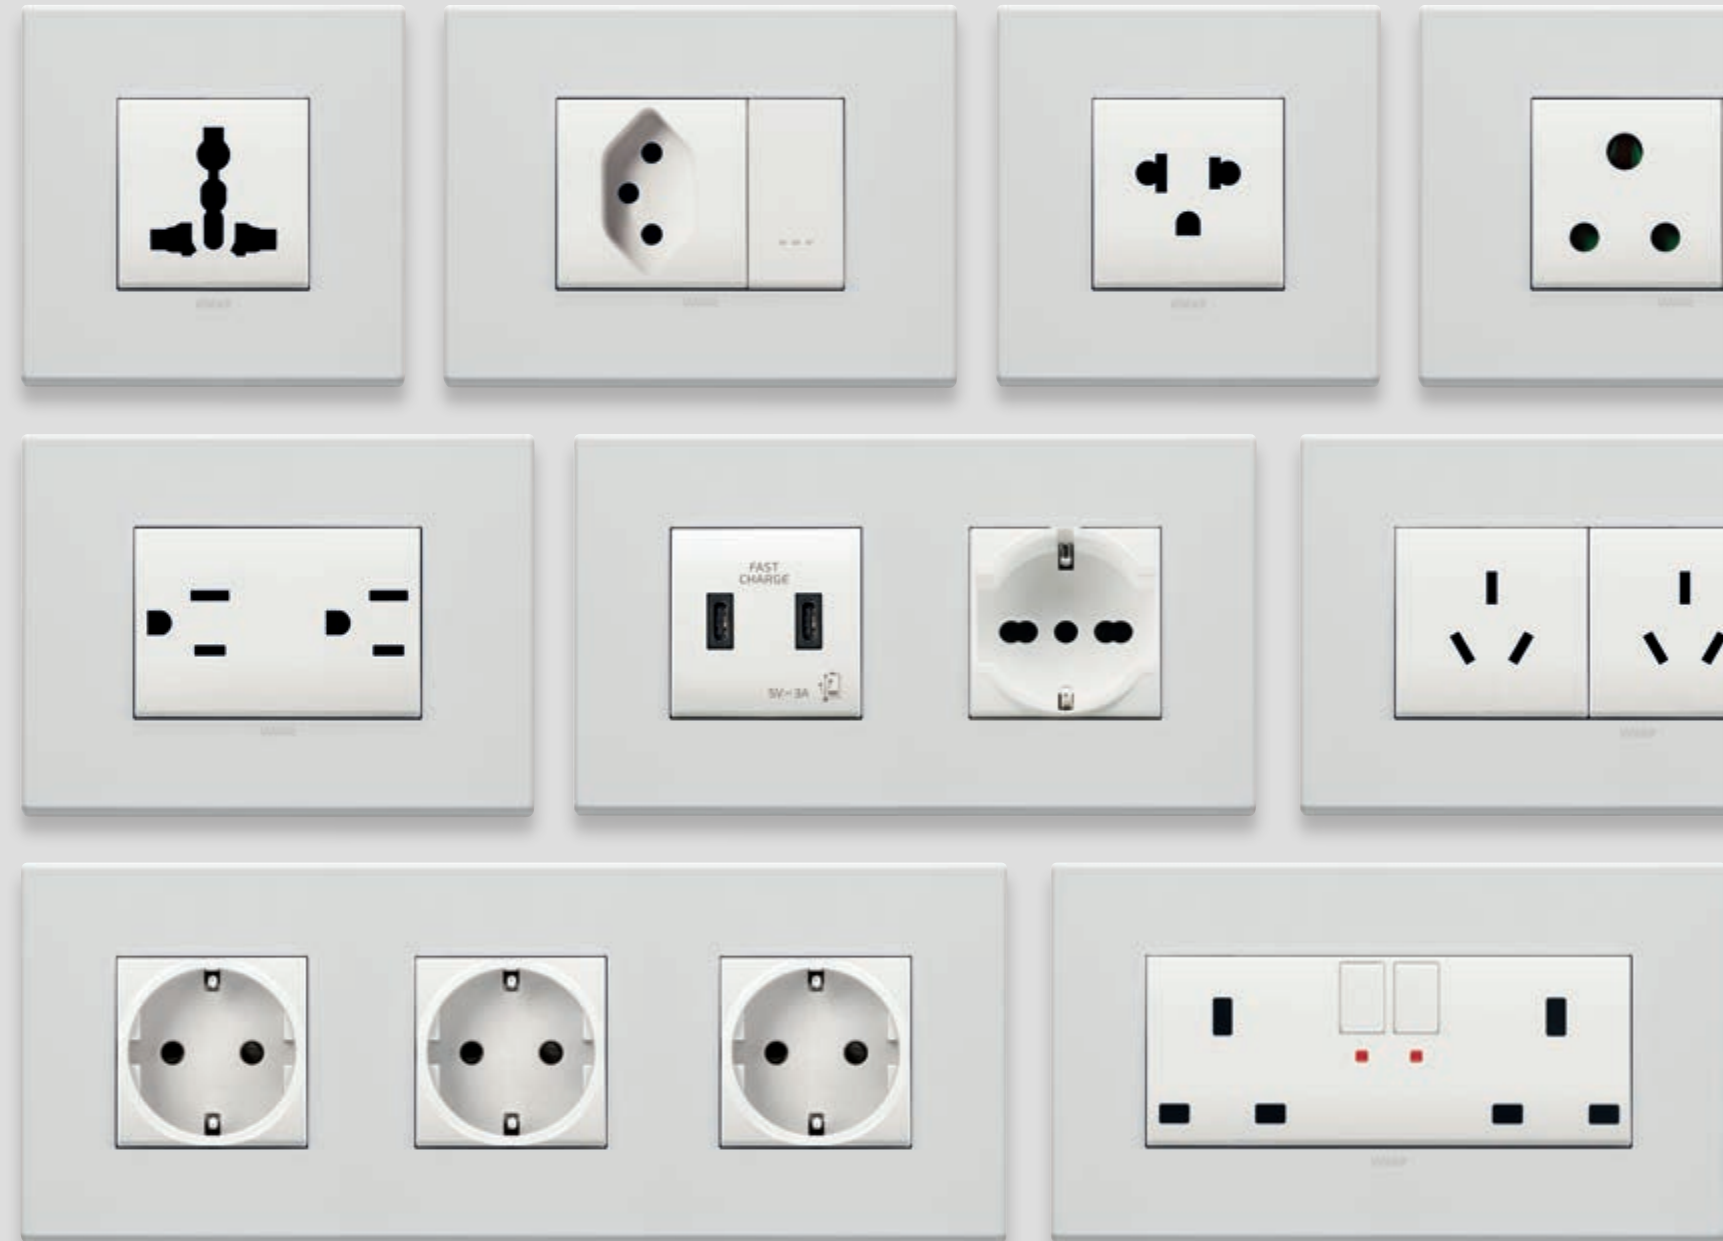

Safety&Security

Easy solutions to live better

Supporting your everyday actions, for increasingly hybrid spaces.
Thanks to our switches and socket outlets, we turn the light on in every room.

More than 200 functions to choose from,
modular, versatile solutions and international standards.

Every project deserves its own style

Versatile solutions to choose from or to combine together, to offer perfect access to energy. Three ranges of switches and socket outlets, each one with its own identity to integrate with various settings and lifestyles. Find out more about the **Eikon**, **Arké** and **Plana** wiring series and the **Elvox Door entry** systems range.

Eikon

Plana

Elvox Door Entry

Stylish geometric shapes and impeccable materials, painstaking care for details for a bewitching look

Eikon. Souls that differ in their design and finishes, coined to manage energy in an exceptional manner

Eikon Evo
Sophisticated geometric shapes

Eikon Tactil
High-tech appeal

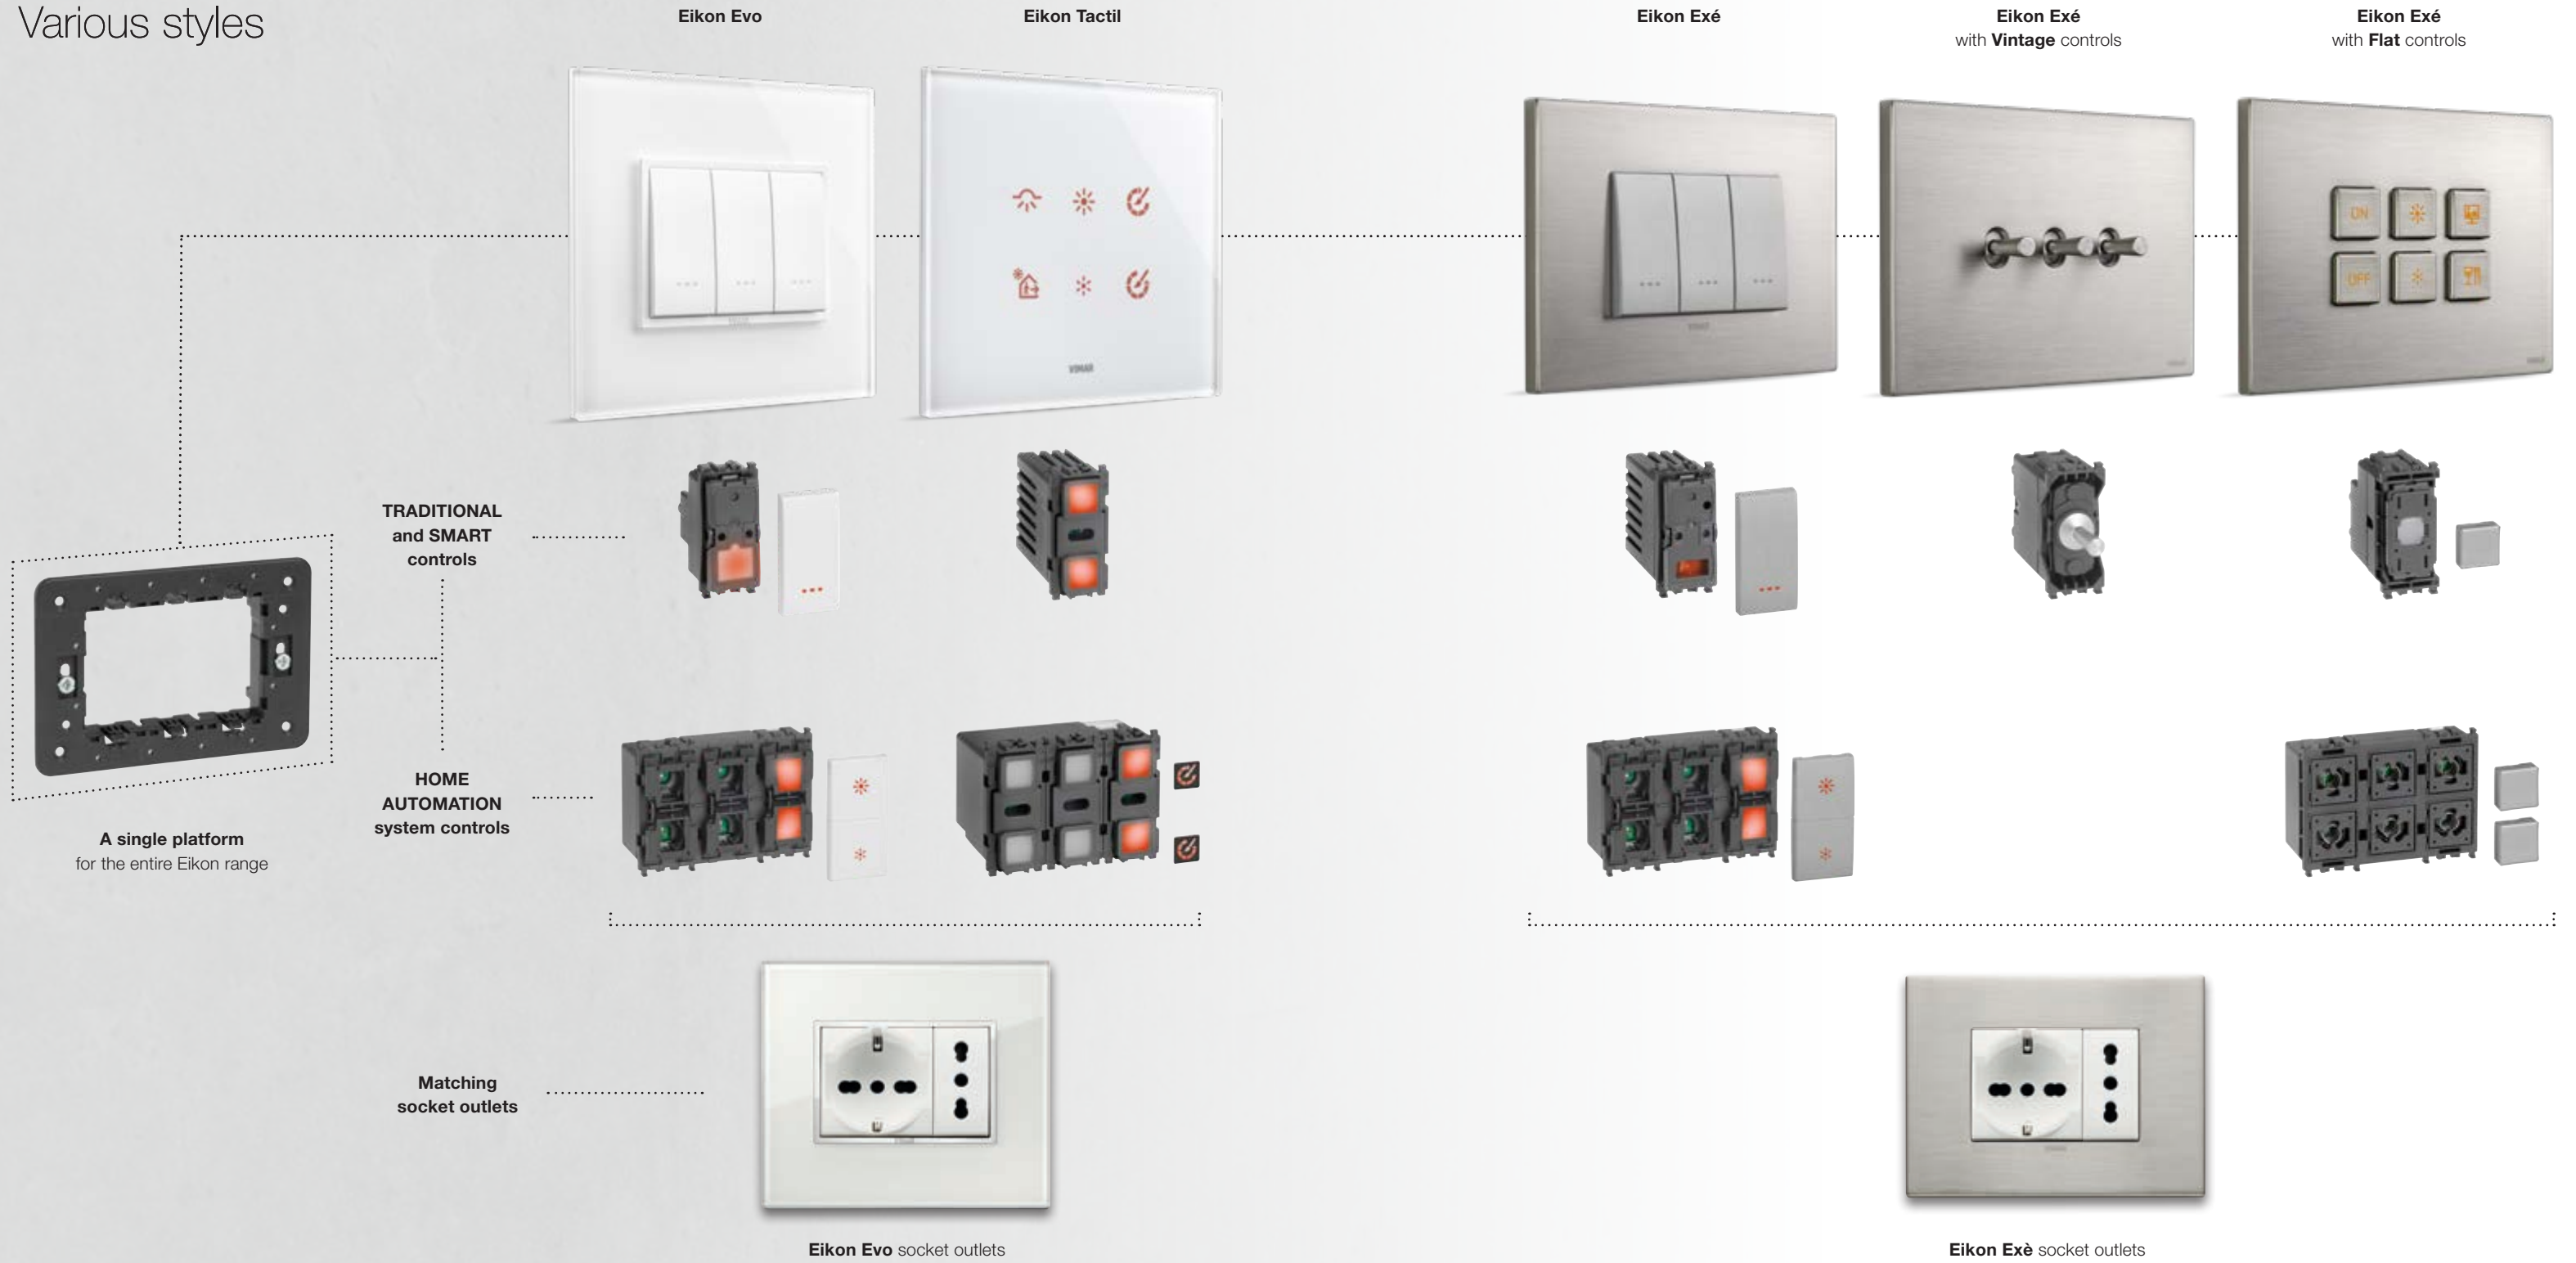

Eikon Exé
Material and form

Eikon Exé with Vintage controls
Modern retro essence

Eikon Exé with Flat controls
Simple yet striking minimalism

Eikon. A single platform.
Various styles

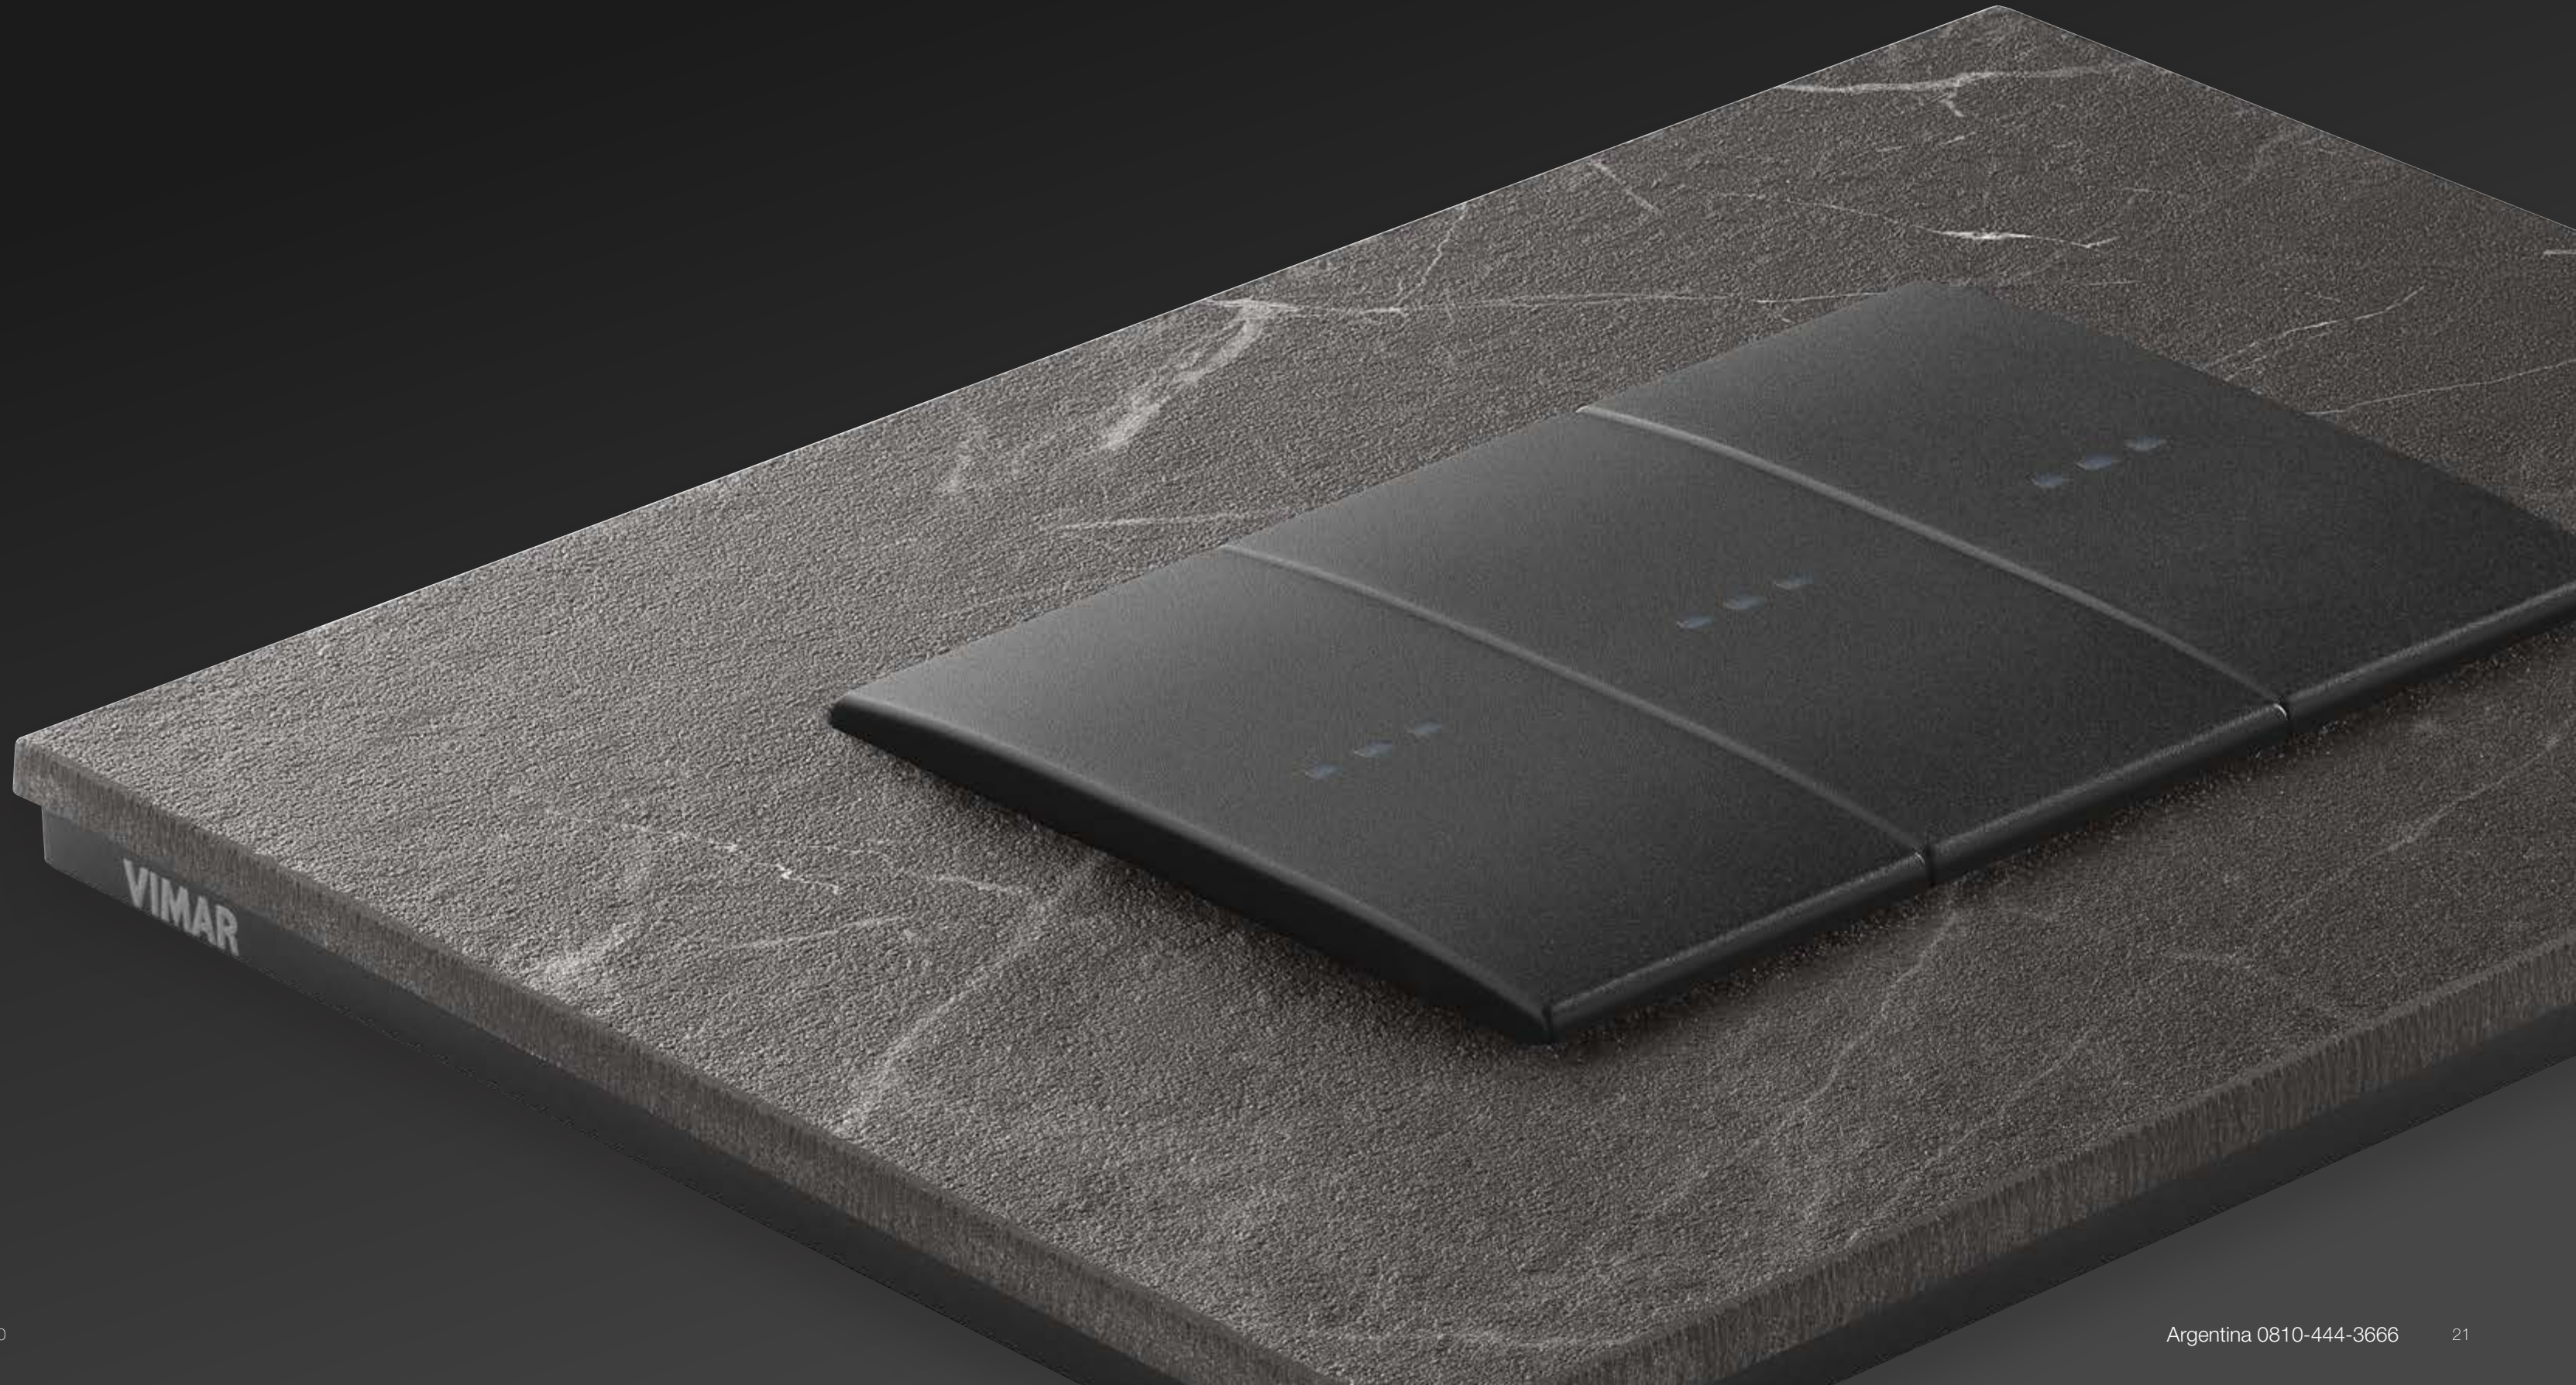

Pure essence of form and material. Slim profiles to emphasise the design. Prized materials and choice finishes that embrace squared corners and striking silhouettes for a cover plate that blends in seamlessly in any setting, creating an original look every single time. Stylish details.

Eikon Exé

VIMAR

The mesmerising silhouettes of the past have been restyled with a modern twist to give settings an exclusive, slightly retro style. They offer perfectly matching styling, sophisticated yet at the same time pure and linear, between the controls and the Eikon Exé cover plate in the same finish.

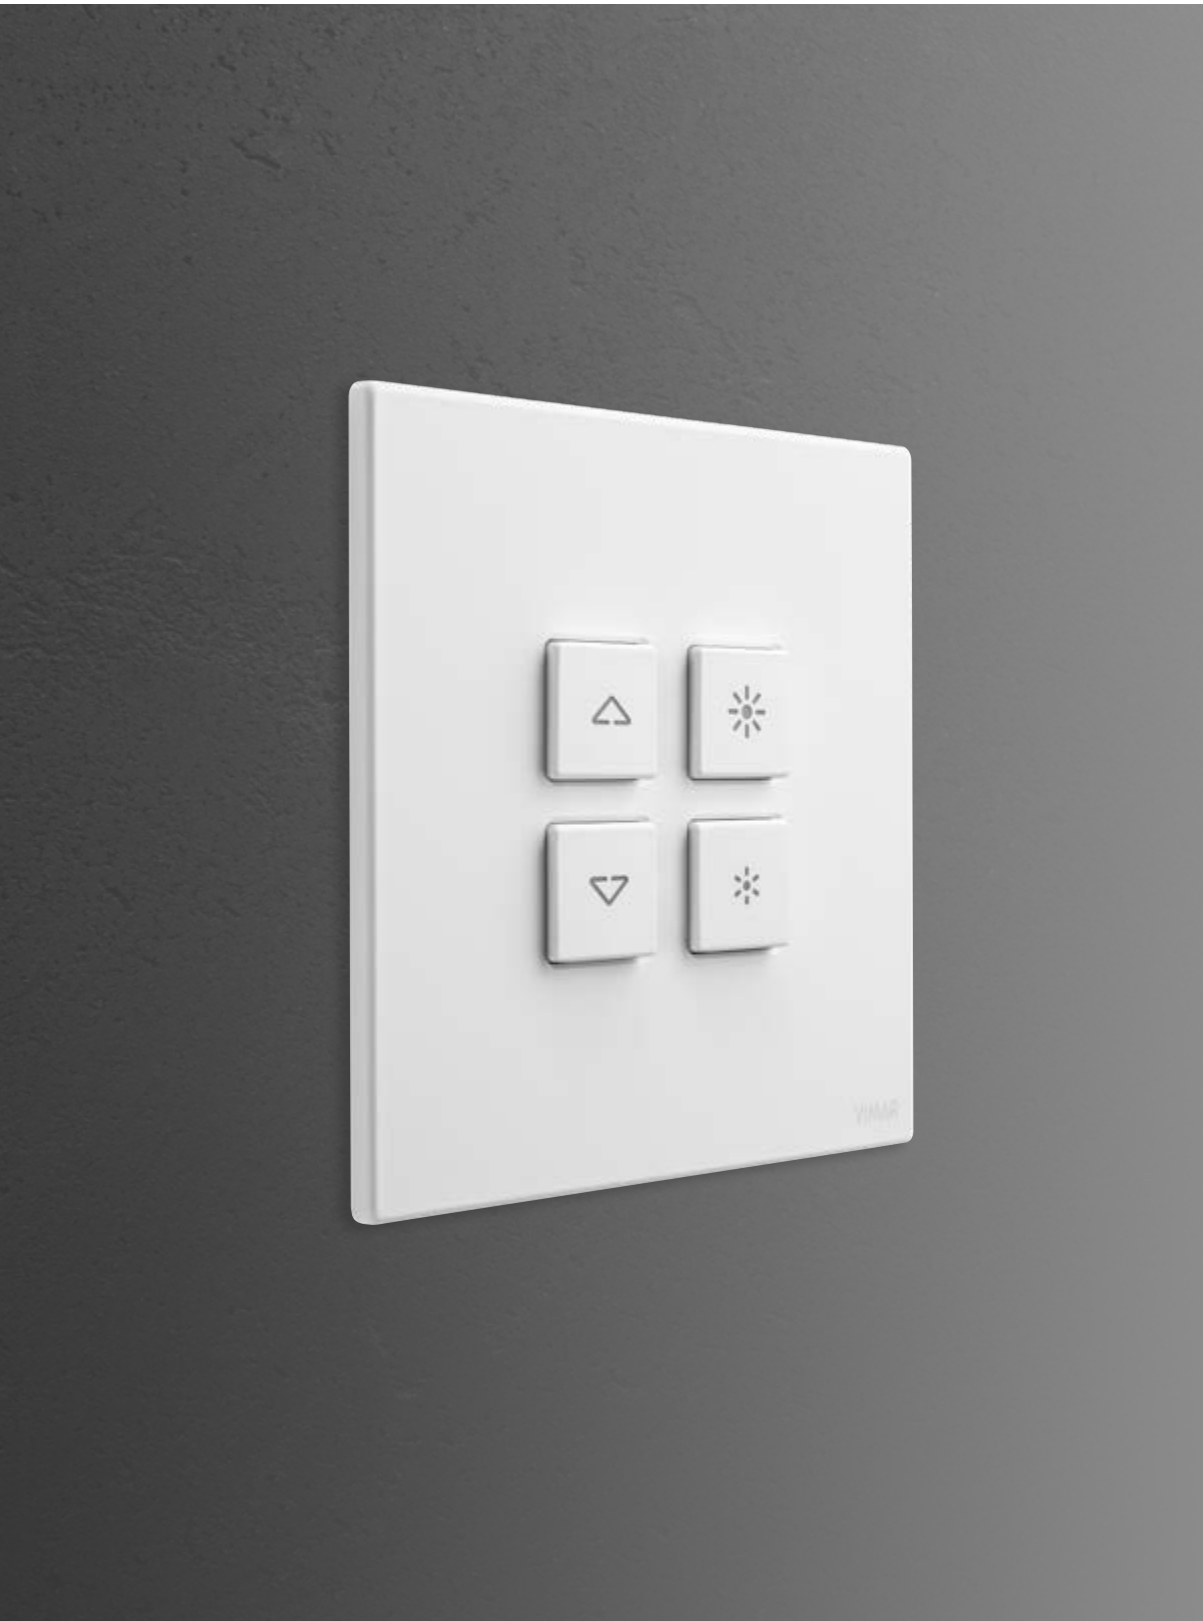

Eikon Exé with Vintage controls

Argentina 0810-444-3666

The squared, flat shape of the controls affords a pleasant effect flush with the surface to emphasise the textured appeal of the cover plate. When teamed with the respective Eikon Exé cover plate, they generate an elegant Total Look with simple silhouettes and clean-cut, elemental geometries.

Eikon Exé with Flat controls

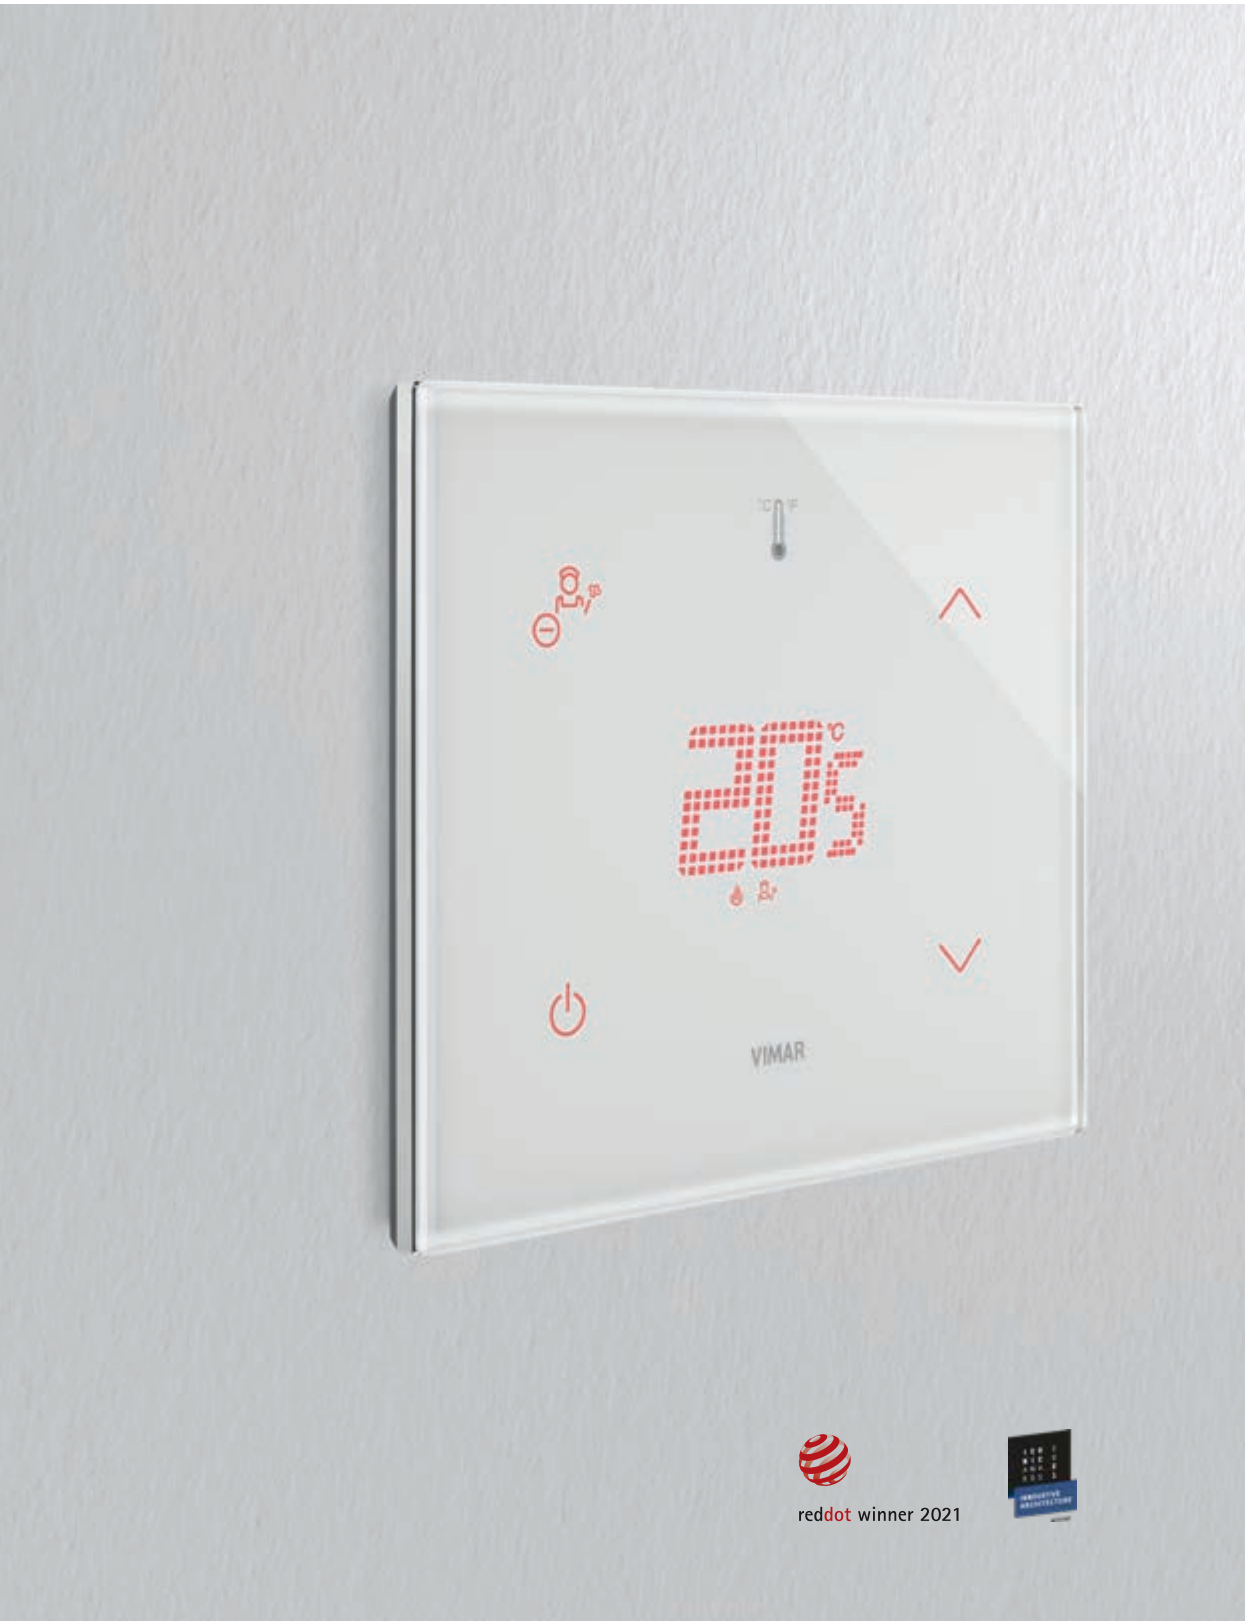

The opportunity of flush mounting installation.

Eikon is perfectly aligned with the wall without protruding in any way, thereby achieving an even more clean-cut look capable of enhancing the value of any environment.

A high-tech gem with touch controls to turn everyday actions into exceptional moments. Seductive to touch, sensitive to your presence: the proximity sensor on the home automation system controls detects your proximity to the device and anticipating your possible action, activates it. The controls light up, ready to be touched.

Eikon Tactil

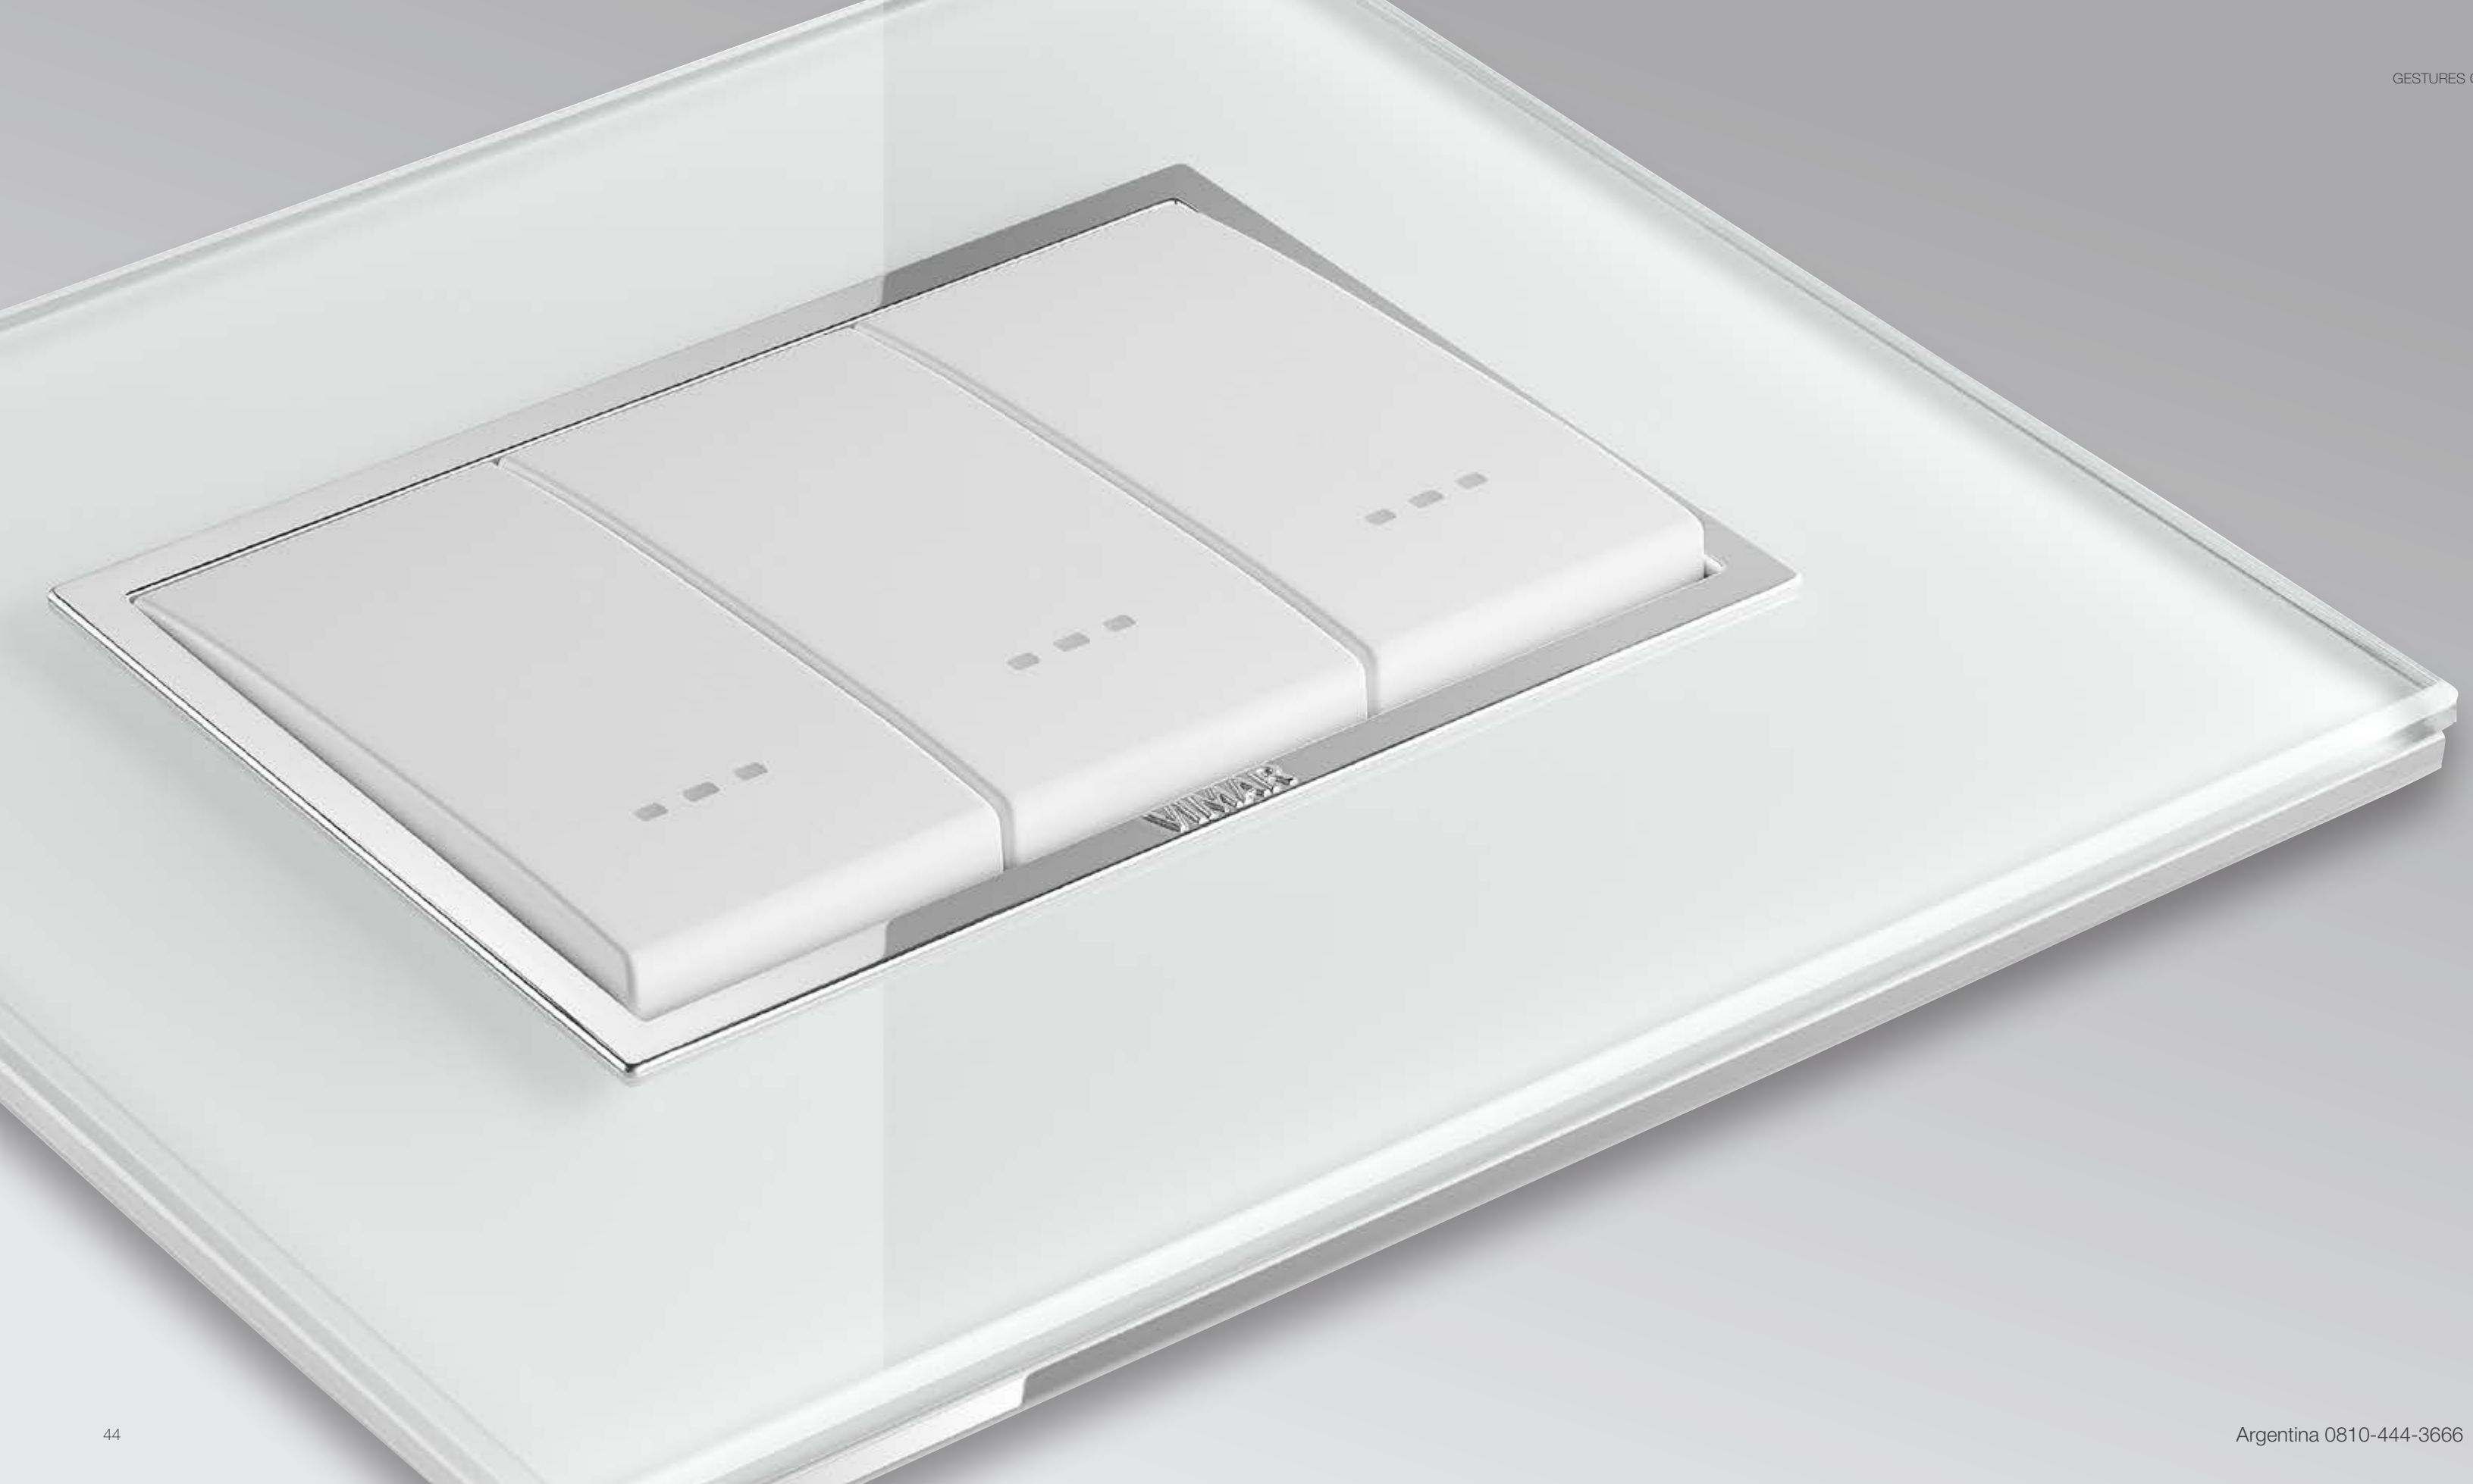

Eikon Evo

Shapes designed to be noticed, sizes which delicately stand out on walls, unprecedented combinations and colours, a stylish frame. A design that brings out the very best Italian style to match Eikon Tactil cover plates to perfection.

Eikon Tactil

The beauty of a bespoke project. Customisation possibilities

Customised cover plates.

To add value to the identity of the project, the cover plates can be engraved with a logo provided by the customer. Laser technology is used to replicate any symbol clearly and precisely, generating a long-lasting result.

Customised controls.

To indicate the function associated with the control, the buttons can be laser engraved with symbols picked out from our extensive library of customisations or provided directly by the customer. Further customisations include Mylar labels featuring certain standard symbols.

Create your user experience.

The displays and touch screens are highly customisable. Special images or backgrounds can model devices according to how you feel. Thanks to RGB LED technology, you can also choose the colour of the backlighting to create totally coordinated interfaces.

The value of details.
Uniqueness lies in attention to detail

The Eikon series offers a comprehensive range of solutions to customise your system and strike the perfect balance between styling and technology. Special finishes comprising metals, leathers, glass and stoneware.

More colour for your living spaces. More than 200 shades of cover plates and functions

An exclusive opportunity: in addition to the existing range of colours in the catalogue, with the Eikon Evo and Eikon Exé series in metal, you can choose to paint the cover plate in a special RAL K7 specification.

Eikon Exé and Eikon Exé The Collections. Total Look metals

Styling continuity and discrete tones for total immersion. Barely there elegance. Striking simplicity in three timeless shades: Matt White, Anthracite Grey and Next, in order to match the buttons in the same colour.

86 Brushed Copper

Eikon Exé. Glass

Transparencies and games of light teamed with unique details. Surfaces that are screen-printed on the back and flush-ground polished edges in three designs: the classic appeal of Milky White, the warmth of Canvas White and the timeless elegance of Satin Black.

Eikon Exé

71 Milky White

72 Canvas White

73 Satin Black

Eikon Exé. Mirrors

A solution that lights up environments and created depth. Reflections and lights that interact with the interiors. Reflective surfaces emphasised by a polished edge flush-grinding process. A splash of technology for the Ice Silver finish, an enveloping hue for Shiny Bronze, and a warm tone and satin-finish for Opal Brown.

Eikon Exé

75 Ice Silver

76 Shiny Bronze

77 Opal Brown

Eikon Exé. Marbled stoneware. Wood

Stoneware, inspired by the textured strength of marble, featuring elegant irregularities and typical vein patterns. The ultimate quality for a material that recalls the most exclusive stones.

Eikon Exé

51 White Calacatta

52 Coffee Brown

53 Black Marquina

Wood, the warmth and vitality of a natural material par excellence. Three different natural wood finishes. The lighter shade of Oak, the warm hues of American Walnut and the typical mottling of Eucalyptus.

Eikon Exé

31 Oak

32 American Walnut

33 Eucalyptus

Eikon Exé. Leather

A soft and sophisticated material rendered unique by its slight imperfections. Classic tones with a highly tactile appeal. Savannah with its natural look, the more matt and velvety Steppe, and the fine grained and sophisticated Black Forest.

Plana

Elvox Door Entry

Contemporary soul.
Versatile style.
Strong personality.

A concentrate of design and technological progress, with a strong, innovative personality

Interior design details which can turn into veritable items of décor. Simplicity and personality to enjoy spaces creatively. Three shapes for your unique style.

Arké Classic

Arké Round

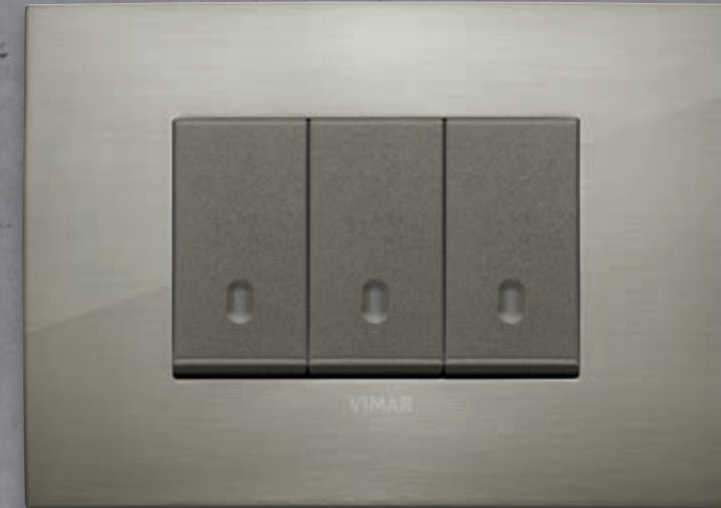

Arké fit

Rational geometric shapes, a linear profile and clear-cut corners. Charm that never goes out of fashion. The choice is therefore simple, to add value to interior details. A classy, well-balanced choice.

Arké Classic

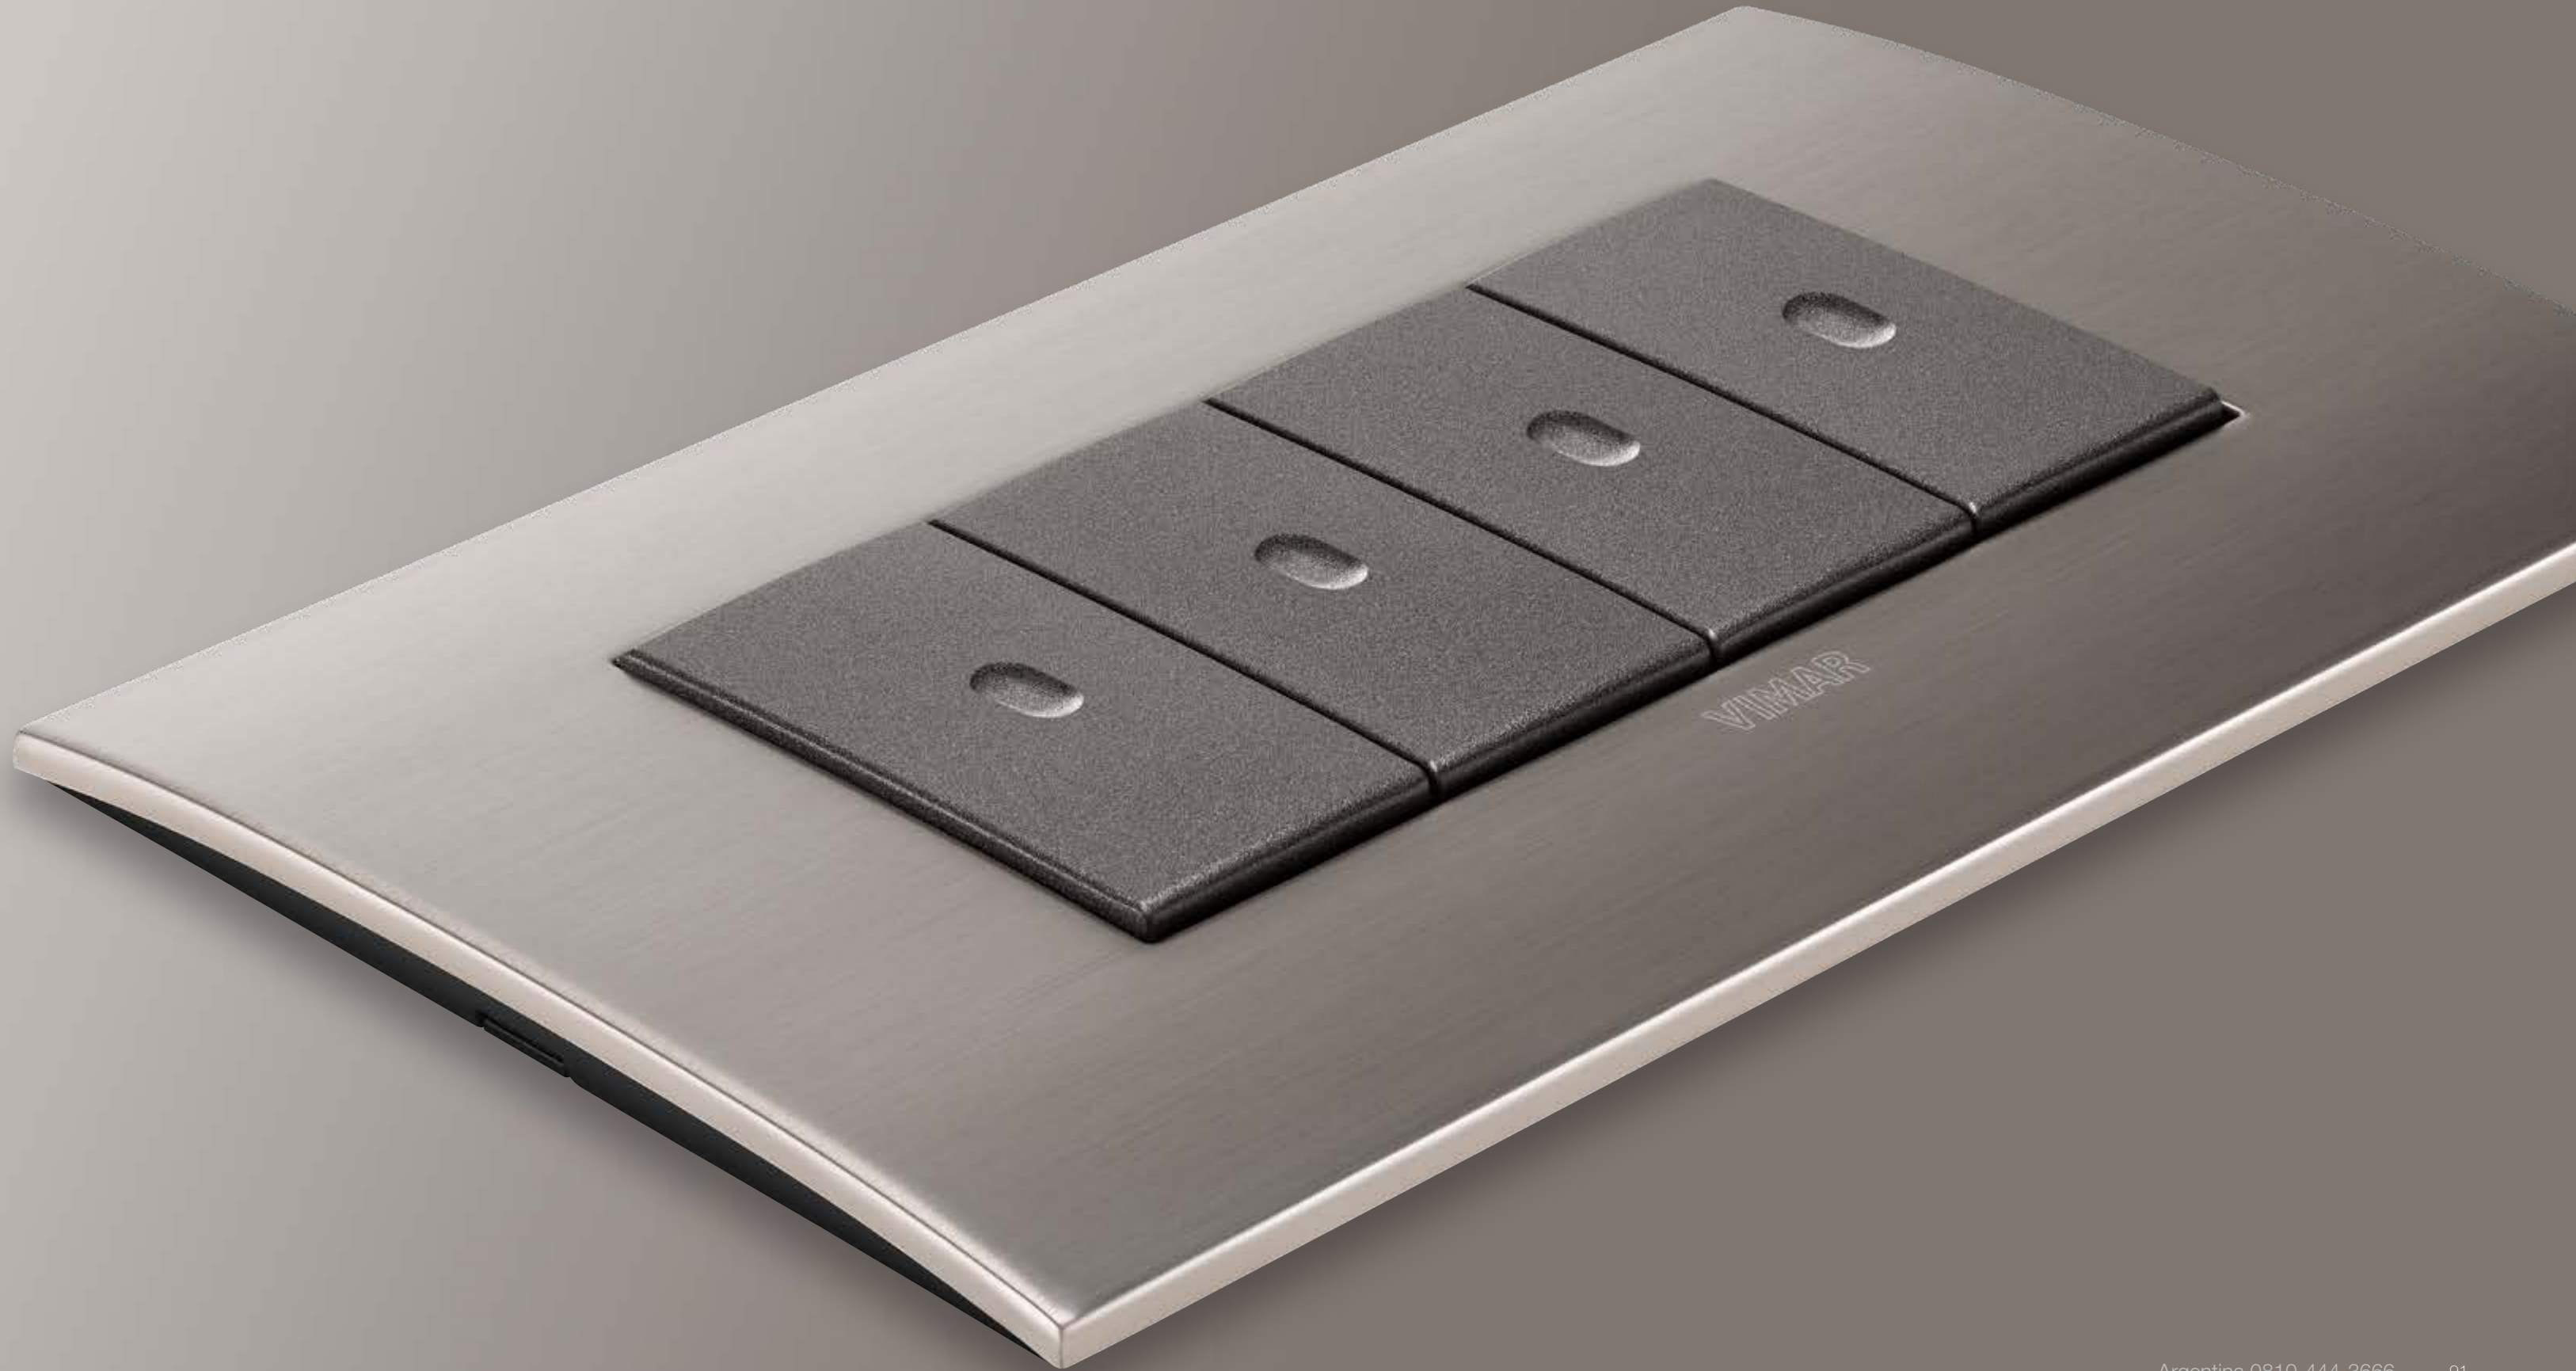

Curved silhouettes are intertwined to emphasise the beauty of shapes. The peaceful energy of nature in your living spaces. Longing for a warm welcome.

Arké Round

Beautiful and light-weight on any wall. Arké Fit, the slimmest version in the range: sophisticated, with unique finishes. It is light-weight on any wall, providing the perfect flush-fit result, and it blends in seamlessly with any architectural context or interior design style.

Arké fit

Total Look. Black

Elvox Door Entry

The beauty of communicating
with the outside. Simply and safely.

Seeing what goes on outside the home, recognising those who ring our doorbell, even when we are out, and communicating accurately are all crucial operations for living a quiet life. This is why we need access to sophisticated solutions based on innovative technology and a comprehensive range that can ensure the safety and clarity we require by simultaneously combining user-friendliness with a system that is simple to install.

Tab 7S Up

For total control, even when you are out and about. Video entry phones distinguished by the light weight, elegance and understated silhouettes that distinguish all the models. They provide a perfect image of what is going on outside thanks to the 7" and 5" monitors.

Tab 5S Up

Voxie (handset)

Voxie (hands-free)

Simplicity at hand. Simple yet high performance entry phones. Linear, contemporary design, complete with all the necessary functions. Hands-free or with a handset. Ideal when replacing old entryphones.

Our projects all over the globe

Residential, hospitality, offices and public spaces, marine industry.

Le Blanc Spa Resort, Los Cabos, Mexico

Residential

Choosing a single partner who meets all the needs of the smart Home and Building automation: the safety of entering and leaving your home with the utmost freedom and comfort, thanks to functional products and integrated solutions that bring together technology, innovation, reliability and design.

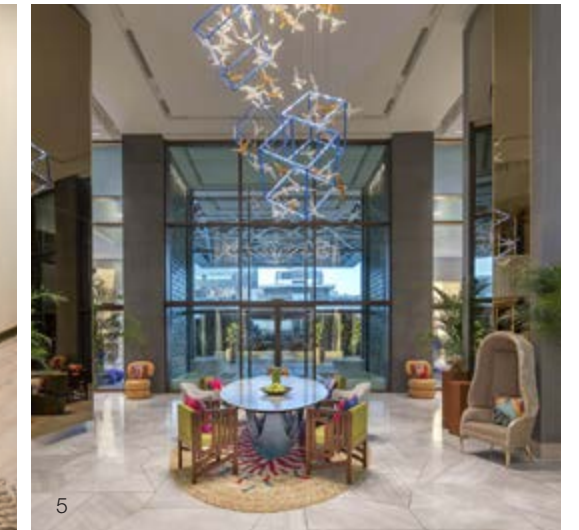

1 & 2. Househut Private villa, Reggio Emilia 3. Private apartment, Porto Viro 4. Private villa, Treviso 5. Oceano residence, Guernsey

Hospitality

Modular solutions for all accommodation facilities: designed to offer guests the very best in comfort and safety. Ensuring the matching styling of all the devices installed to guarantee both energy efficiency and complete control of the accommodation facility, irrespective of its size, from huge hotel chains to small boutique hotels and B&Bs.

1. The Barracks Hotel Sentosa, Singapore 2. Hotel Riu Palace Luxury hotel, Tikida Agadir 3. Pullman Phu Quoc Beach Resort, Vietnam
4. Golden Lake Hotel, Vietnam 5. Hyatt Centric Tiara, Dubai

Offices and public spaces

The advantage of choosing a partner capable of supporting the customer right from the start, analysing the plant engineering project together. A service affording high added value which makes the project completion quick and simple.

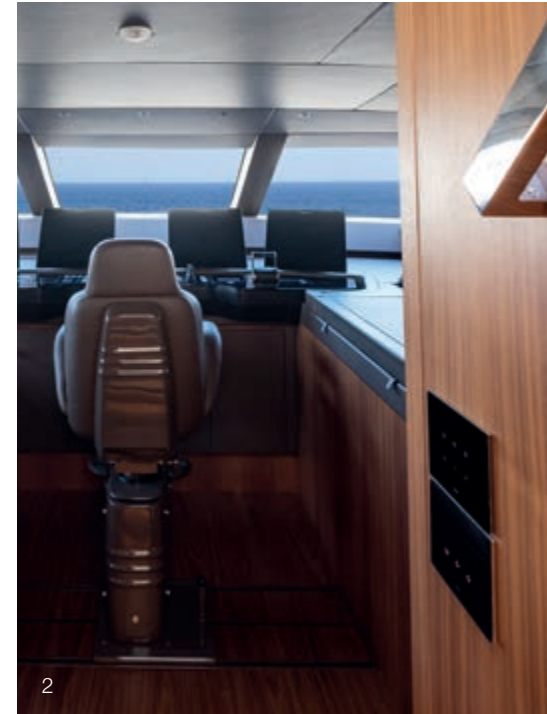

1. Microgate Headquarters, Bolzano 2. Guardini Headquarters, Turin 3. Platform Basket offices, Reggio Emilia
4. Emergency Headquarters, Milan 5. Respite Care Home, Faroe Islands

Marine

The integration of home automation functions and automations also applies to the naval and marine sector, enabling the smart management of vessels while guaranteeing on-board comfort: whether your field is cruise liners, luxury ships, power yachts or sailing boats, while offering the very best Italian design and ample scope for customisation.

1. San Lorenzo privato yacht 2. Private yacht 3. Princess Yacht X95 4. Hanse private sailing yacht 5. Costa Venezia, Costa cruise ship

Energia Positiva italiana.
Industrial-size organisation, bespoke quality.

We have adorned the homes and buildings of Italians and the world over since 1945. We are a high-tech industrial company which builds its strength on the ability to evolve in keeping with domestic styles. Our products satisfy the most demanding interior design trends, but are also capable of offering unique wiring systems. The experience we have gained in over 75 years of business allows us to work in a tailored way on each single project, because every building is unique, as are the needs of the various stakeholders involved.

100% Design Made in Italy.

We support the commitment to a renewed design concept: with the work we do every day, with our research and our drive to innovate, we bet on the urgent challenges to regenerate the environment. Circular economy, social and environmental sustainability are opportunities for development and growth. We have chosen positive energy and also to share our achievements.
